EMPLOYMENT HISTORY

Engineer – Cloud & Infrastructure Management (Cybersecurity IAM) | LTIMindtree | Bhubaneswar

May 2022 – Nov 2025

Client: Delta Airlines

- Engineered and managed Identity and Access operations, transitioning focus from reactive support to proactive, identity-first security measures.
- Streamlined the complete Identity Lifecycle Management process, significantly enhancing onboarding and offboarding workflows and lifecycle automation.
- Provisioned access to UNIX systems and client-based custom applications, highly utilised for operational purposes within Delta Airlines.
- Managed entitlements and groups, successfully onboarding groups from SSGM (client-based automated group management) and manual Active Directory into SailPoint for end-to-end automation.
- Governed entitlement lifecycles, managing secure assignments and facilitating seamless ownership changes.
- Directed the creation, modification, and secure deletion of Shared Mailboxes, Distribution Lists, and User Accounts within Active Directory and Azure AD environments.
- Conducted comprehensive audits of deactivated user accounts and securely managed the reactivation process.
- Executed rigorous Privileged Access Reviews, meticulously cleaning up excess alignments to strictly enforce the least privilege principle and mitigate security vulnerabilities.
- Responded to and managed P1 critical incidents, collaborating with the team to successfully recover DLTERM IDs within SLA constraints, ensuring minimal operational impact.
- Handled high-volume bulk requests and RITM User Requests, maintaining stringent SLA compliance while managing cross-functional escalations.
- Validated and tested ITSM environments, running functional tests on custom ServiceNow forms and collaborating with development teams for swift remediation.

- Audited system-flagged Contractor IDs during vendor transitions, performing identity resolution to either provision concurrent access or override legacy accounts while ensuring strict data preservation to prevent information loss and account duplication.
