

KUNAL PANIGRAHI, SECURITY ANALYST (IAM)

Bhubaneswar, Odisha, India | +91-7873453502 | kunalpanigrahi027@gmail.com | kunal027.github.io

PROFESSIONAL PROFILE

3.6 years of experience as a security analyst with a focus on identity and access management (IAM). Adept at utilizing Zero Trust techniques to secure environments, enforce access controls, and manage user identities. Demonstrated proficiency with JML (Joiner, Mover, Leaver) lifecycle operations, automated provisioning, seamless application connection architectures, and the enforcement of RBAC models. Committed to proactively lowering organizational risk while maintaining smooth operations and rigorous adherence to regulations.

CORE COMPETENCIES

- **Identity Governance & Administration (IGA):** Identity Lifecycle Management (JML), Access Certification & Recertification Campaigns, SailPoint IdentityIQ (Compliance Manager, Lifecycle Manager), Zero Trust Architecture.
- **Security & Compliance:** Role-Based Access Control (RBAC), Privileged Access Management (PAM), Compliance & Provisioning, SoD Policies.
- **Operations & Automation:** Workflow Automation (SailPoint rules, connectors, provisioning/de-provisioning), ServiceNow ITSM (Incident, Change, Request modules), SLA Incident Management, Bulk Access Requests, Root Cause Analysis (RCA).

TECHNICAL SKILLS

- **IAM Platforms & Directories:** SailPoint IdentityIQ, Active Directory, Microsoft Entra ID (Azure AD), Microsoft Exchange
- **SailPoint IIQ:** Application Onboarding (AD, JDBC, Delimited, LDAP connectors), Provisioning & De-provisioning, Rules & Workflows, Access Certifications (Manager, Entitlement Owner, App Owner), SoD Policies, Role Modeling & Mining, Lifecycle Manager, Reporting
- **Identity & Access Concepts:** RBAC, PAM, JML Lifecycle Management, Least Privilege, SoD, Access Certification, Zero Trust
- **Tools & Systems:** ServiceNow (ITSM), SecureCRT, Unix/Windows Servers
- **Client-Based Custom Tools:** DLTERM, VSTERM, SSGM (Self Service Group Management)

EMPLOYMENT HISTORY

Engineer – Cloud & Infrastructure Management (Cybersecurity IAM)

LTIMindtree | Bhubaneswar

May 2022 – Nov 2025

Client: Delta Airlines

- Engineered and managed end-to-end Identity Governance & Administration (IGA) operations, shifting the function from reactive support to proactive, identity-first security aligned with Zero Trust principles.
- Streamlined the complete Identity Lifecycle Management (Joiner-Mover-Leaver) process, improving onboarding/offboarding turnaround and reducing manual touchpoints through lifecycle automation.
- Onboarded groups and entitlements from SSGM (client-based automated group management) and manual Active Directory into SailPoint IdentityIQ, extending end-to-end provisioning automation across 1,000+ entitlements.
- Governed entitlement lifecycles and access certification activity, supporting manager/entitlement-owner recertification campaigns and secure ownership transitions in line with SoD requirements.
- Provisioned and de-provisioned access to UNIX systems and client-based custom applications (DLTERM, VSTERM) supporting core Delta Airlines operations.
- Directed creation, modification, and secure deletion of Shared Mailboxes, Distribution Lists, and User Accounts across Active Directory and Microsoft Entra ID (Azure AD).
- Executed privileged access reviews (PAM), identifying and removing excess entitlement alignments to enforce least privilege and reduce the organization's access-risk surface.
- Led response to P1 critical incidents, recovering DLTERM IDs within SLA, maintaining 98%+ SLA compliance on high-priority tickets and minimizing operational impact.

- Processed high-volume bulk access requests and RITM tickets via ServiceNow, managing cross-functional escalations while sustaining SLA adherence across a multi-hundred-ticket monthly queue.
- Functionally tested custom ServiceNow ITSM forms (Incident/Request modules), partnering with development teams on rapid defect remediation.
- Audited system-flagged contractor IDs during vendor transitions, performing identity resolution to provision concurrent access or override legacy accounts while preserving audit data integrity and preventing duplicate identities.
- Conducted periodic audits of deactivated accounts and managed secure, policy-compliant reactivation workflows.

EDUCATION

- Bachelor of Technology (Computer Science & Engineering), Centurion University of Technology and Management, Bhubaneswar, Odisha — 2021 | CGPA: 7.9/10

CERTIFICATIONS

- [Microsoft Azure - AZ900 Certified](#)
- [IT Fundamentals for Cybersecurity \(IBM\)](#)

ACHIEVEMENTS & AWARDS

- Optimism Badge – Recognized for positivity, patience, and helpful nature in client interactions.
- Epic Squad Award – Recognized for collaborative excellence in deploying time-sensitive security initiatives, maintaining uninterrupted system stability and operational excellence.
